

cigar ashtrays

salamander

A photograph of a glassblowing workshop. In the background, a large, glowing yellow-orange mass of molten glass is being poured from a ladle into a dark, arched mold. In the foreground, several long, cylindrical glass rods, which have been heated and are still glowing orange, are resting on a dark metal stand. The scene is dimly lit, with the primary light source being the intense heat of the molten glass.

We are an innovative
Czech glass design company
offering lifestyle handmade
glass accessories and lights
in unique design.

Our mission is to highlight your interior.

SALAMANDER

The Salamander ashtray is the most organic masterpiece of all Czevitrum products. Its shape was inspired by the face of a salamander, and the outstanding design solution makes it the most original cigar ashtray on the market.

Each piece is hand-blown without using any mould that makes it unique and never completely the same. After blowing, it is hand cut, polished, and sanded. Unconventional design makes Salamander not a common cigar accessory, but also a functional and decorative interior element.
